On June 29, 2022 a Kenai grand jury, by majority vote, voted to investigate public corruption within Alaska's judicial system. This included evidence that Alaska's only judge investigator for the last 33 years and counting (Marla Greenstein) is falsifying official investigations

so corrupt judges can remain on the bench and continue ruling over We-the-People. Before the grand jury could examine the evidence or question witnesses, Judge Jennifer Wells ordered them to stop and permanently dismissed the grand jurors from duty. This is the class "C" felony of Jury Tampering (AS 11.56.590) and the class "B" felony of Interference with Official Proceedings (AS 11.56.510). See also Article 1, Sect. 8 of AK Constitution: "The power of grand juries to investigate and make recommendations concerning the public welfare or safety shall never be suspended."
